A Month of Leadership, Learning, and Lasting Connections. Message from ACEK President

May/June has been a month filled with purpose, partnerships, and powerful conversations. From high-level dinners to technical webinars, collaborative courtesy calls to vibrant youth events, ACEK continues to champion the consulting engineering profession while creating meaningful engagement with our members and /partners. Here's a full roundup of what has defined our month.

THE ACEK PRESIDENT'S NETWORKING DINNER

An Evening of Vision, Connection, and Celebration

On 28th May 2025, ACEK hosted its much-anticipated President's Networking Dinner—an elegant evening that brought together a cross-section of engineering leaders, sponsors, young professionals, and industry trailblazers.

The evening was proudly sponsored by **Blackwood Hodge Kenya**, and their Regional Country Manager, **Usama Yousaf**, delivered a compelling speech tracing the company's journey and reaffirming their commitment to Kenya's infrastructure development. He emphasized the importance of partnerships in delivering sustainable engineering solutions and highlighted Blackwood Hodge's mission to empower the future of Kenya.

Eng. Margaret Ogai, CEO and Registrar of the Engineers Board of Kenya, gave insightful remarks on the critical role of collaboration between regulators and practitioners. She emphasized the EBK's continued support for professional development and policy alignment within the consulting engineering space. Eng. Ogai also took the opportunity to introduce her team, applauding the efforts of stakeholders working to elevate engineering standards in Kenya.

ACEK President **Eng. Jane Mutulili** was the evening's star, delivering a heartfelt and inspiring address that outlined the Council's strategic vision. She unpacked the ACEK Strategic Plan, reflecting on the Association's progress and calling for continued collaboration with industry partners. Eng. Mutulili graciously recognized ACEK's members, partners, and friends of the Association, whose contributions continue to shape the future of engineering in Kenya.

The dinner also saw an enthusiastic presence from the **ACEK Future Leaders Council**, whose energy and dedication were a testament to the Association's long-term investment in the next generation of engineers. Also gracing the event was **Eng. Shammah Kiteme**, President of the Institution of Engineers of Kenya (IEK), who reiterated IEK's commitment to growing the profession through inclusion, continuous professional development, and strategic alliances with institutions like ACEK. His presence underscored the unity and synergy within the engineering sector.

This memorable evening, held in a spirit of community and celebration, was a powerful reminder of the values ACEK stands for: excellence, leadership, and nation-building.

ACEK × KISM Stakeholder Collaboration – Strengthening Industry Synergies

On 27th May 2025, ACEK paid a strategic courtesy call to the **Kenya Institute of Supplies Management (KISM)** to explore collaborative opportunities in procurement and contract management. The meeting aimed to align professional practices across the supply and engineering value chains.

Discussions focused on developing joint capacity-building initiatives, particularly around procurement guidelines, project implementation phases, and contract lifecycle management. Both institutions expressed a shared vision for professionalism and accountability. This budding partnership promises to drive stronger institutional frameworks and more impactful project delivery outcomes for Kenya.

ACEK at the 1st Women Engineers Conference – Precision, Purpose, and Progress

ACEK was honored to participate in the inaugural **Women Engineers Conference** hosted by the Institution of Engineers of Kenya (IEK). This landmark event celebrated the power of women in engineering and their contributions to innovation and national development.

Representing ACEK at the event were **President Eng. Jane Mutulili**, **CEO Eng. Barbara Adhoch**, **Maven Celestine** (Advocacy & Research Assistant), and **Jocinta Achieng**, a rising voice from the Future Leaders. Together, they embodied the values of mentorship, vision, and resilience.

The conference provided a platform for female engineers to share their journeys, confront systemic challenges, and explore pathways to leadership. ACEK's participation not only reflected our support for gender equality in engineering but also reaffirmed our belief in an inclusive future driven by diverse perspectives.

Webinar Recap: Tax Compliance for Consulting Firms – Empowering Engineering Firms with Knowledge

ASSOCIATION OF CONSULTING ENGINEERS OF KENYA

Guide to Tax Compliance for Consultants and Firms

Objective:
To equip consultants and firms with practical knowledge and tools to achieve full tax compliance in line with KRA regulations, covering key obligations, planning strategies, and best practices for accurate reporting and audit readiness.

**04TH JUNE 2025
4PM - 6PM
PLATFORM: ZOOM**

RESCHEDULED TO: 4TH JUNE 2025

CPA NYAIRO CHARLES MAGATI
Audit & compliance expert with over 10 years of accounting experience

On 4th June 2025, ACEK hosted a timely webinar on **Tax Compliance for Consulting Firms in Kenya**, drawing keen interest from consulting engineers across the country. As tax obligations and regulatory requirements continue to evolve, this session provided clarity on critical issues affecting engineering firms.

The webinar covered key topics including **KRA expectations, withholding taxes, VAT obligations**, and strategies for

effective tax planning. Attendees gained practical insights on how to stay compliant, avoid common pitfalls, and align their financial practices with the law. The session attracted a wide audience and was approved for **4 CPD points**, reinforcing ACEK's role in supporting professional development through relevant, solution-focused programming.

NOTICES

Celebrating ACEK Members: Leadership in Arbitration and Dispute Resolution

The month of June also brought reason to celebrate our members who have continued to elevate the consulting engineering profession through leadership in dispute resolution. ACEK congratulates the newly elected Board Members of the Chartered Institute of Arbitrators – Kenya Branch, and proudly recognizes the achievements of our own:

- Eng. Kariuki Muchemi, former ACEK Chairman, for his election as a Board Member
- Eng. Fredrick Aluoch, ACEK Council Member 2025/2026
- Eng. Howard M'mayi, for being elected as Hon. Assistant Secretary

Their appointments signify the growing influence of consulting engineers in shaping Kenya's legal and arbitration landscape. We wish them all success in their new roles and continued impact in the field

Engineers of Kenya

Congratulations

KENHA AND MINISTRY OF ROADS & TRANSPORT

ACEK Kenya extends its warmest congratulations to **KenHA** and the **Ministry of Roads and Transport** on the successful launch of the **New Kenya Roads Design Manuals 2025!**

This is a monumental achievement that will undoubtedly pave the way for safer, more efficient, and sustainable road infrastructure across Kenya. We commend your dedication to advancing engineering standards and your commitment to the future of our nation's transportation network.

ACEK is pleased to announce an upcoming webinar titled “Principles of Ports & Harbor Design,” set for 11th June 2025. This training will be facilitated by Eng. M.K. Omenda, a distinguished maritime expert with over 34 years of industry experience. The session is designed to equip participants with practical insights into site selection, geotechnical design, sustainable development practices, and the latest innovations shaping modern port infrastructure. Real-world case studies will be used to contextualize the concepts and enhance understanding.

This training is ideal for engineers, architects, and other infrastructure professionals keen on expanding their knowledge in maritime and coastal engineering. In addition to gaining valuable technical skills, participants will earn 4 CPD points upon completion. Don't miss this opportunity to learn from one of the best in the field and stay updated with evolving trends in ports and harbor design.
